### Privacy Information

The information on this page will only be used by the Club for magazine mailings, to advise you of events, renewal notices, or notices of change. Your name, mailing information, email, membership expiry will be provided to our affiliate club, CASC-OR, unless you indicate otherwise. Information will not be provided to any other third party by the Club.

I do not want my information given to CASC-OR

*Our goal is to increase your enjoyment of your Saab by providing Members with a forum for an exchange of ideas and information with other Saab enthusiasts.*

## Membership Benefits

- Monthly club meetings, guest speakers, alternate and interesting venues throughout the year (except December)
- Monthly issues of our club newsletter, the Gryphon (again, except December)
- Club discounts from businesses across Canada
- Enhanced Driving Synergy – A Saab Club of Canada run driving school with over 20 years experience, bringing safe and fun driving to students of all ages and experience – occasionally, discounts are available for club members
- National website with Forum – connect with other Saab owners across Canada and around the world
- Fun social events – Annual winery tour and fall colours tour / fall fun rally
- Links to Saab Cars North America and Saab offices in Sweden
- A member club with the Canadian Automobile Sports Clubs of Canada, Ontario Region (CASC-OR)
- Member affiliation with The Saab Club of North America – a significant benefit for members that provides us with the same membership benefits as paid SCNA members, including the ability to attend the Annual Saab Owners Convention without having to purchase an SCNA membership

## Why do we charge for membership?

As a non-profit organization, we have inherent costs such as Directors and Officers insurance that have to be covered. We also have a web site and forum that cost money. In addition, our newsletter, the Gryphon, requires printing and mailing. All of these costs add up and need to be covered for the club to exist. Everyone who helps run the club does so on a volunteer basis.

## What is the Enhanced Driving Synergy (EDS) program about?

The EDS program is for any licensed driver who wants to improve their confidence in car control, at all speeds and weather conditions.

Our program is a one-day course held at a motorsport facility, to ensure a controlled and safe environment. The day consists of a mix of classroom and individual coaching in your own car.

The on-track segments are provided using small groups of drivers, with similar skill levels which are well spaced out on the track. A coach is in your car during on-track exercises.

Taking just one day of coaching will improve your skill level dramatically. However, experience tells us that drivers should take this type of course a minimum of every few years, in order to maintain their proficiency in advanced car control.

Some drivers who have taken several of these courses have moved on to regional and national competitive events, as they enjoyed the challenge of using these driving techniques, in this type of environment and have been very successful.

### 2011 Enhanced Driving School Schedule

**Friday, May 6 - Fabi Circuit \$279**

**Friday, Sept. 9 - Full Circuit \$299**

**prices include taxes**

**Shannonville Motorsport Park**

## How will this course benefit me?

To provide you, the every-day driver, with the confidence to avoid an incident on roads in all weather conditions, when confronted with a situation that normally would result in an unpleasant moment. Some other questions that you may think of are . . .

- *Are you nervous driving?*
- *Do you instinctively know what you should do to avoid an accident with little notice or time to think?*
- *Is braking the best option in a panic situation?*
- *Do you know the difference between braking and turning and turning and braking?*
- *Do you know the handling limits of your car?*
- *Do you know how to find them safely?*
- *Do you know how the "other" driver will likely react and what that means to your escape route?*
- *Do you know how to quickly find the best escape route?*
- *Would you like to be a more proficient driver?*

These questions will be answered by taking this course. We don't even limit it to Saab owners ... we truly believe that all drivers can benefit from our program.

## What is the cost?

The cost of a course is a lot less than the repair to your car, if you were involved in an avoidable accident, not to mention the ancillary aggravation accidents cause.

The fee includes:

- Classroom and in-car coaching
- A comprehensive 'driver handbook'
- A continental breakfast
- A home-style BBQ lunch
- Liquid refreshments throughout the day
